I 280 Soundwalls Project

Overview

The Santa Clara Valley Transportation Authority (VTA), in cooperation with the City of San Jose and the Department of Transportation (Caltrans), proposes to construct soundwalls on I-280 between State Route 87 and Los Gatos Creek.

Objective

The purpose of this project is to reduce noise by constructing soundwalls as an effective abatement measure.

Project Features

The potential improvements, subject to meeting noise abatement criteria, may include but are not limited to the following:

- Construct new soundwalls along northbound I-280 between the Caltrain tracks and the Los Gatos Creek Bridge
- Construct new soundwalls along southbound I-280 between the Los Gatos Creek Bridge and the Caltrain tracks
- Construct new soundwalls along southbound I-280 between the Caltrain tracks and Bird Avenue
- Construct new soundwalls along southbound I-280 between Bird Avenue and State Route 87

Project Cost Estimate

The total project cost is estimated at \$12 million and may be funded with a combination of local and state funds.

Project Schedule

Environmental Clearance Phase:	Spring 2020 - Spring 2022
Design Phase:	Spring 2022 – Winter 2023
Construction Phase:	Spring 2023 – Spring 2024

Visit project webpage <https://www.vta.org/projects/i-280-soundwalls-project> for latest schedule.

How to Reach Us

If you have any questions about the I-280 Soundwalls Project, please call the VTA Community Outreach Department at (408) 321-7575, (TTY) for the hearing-impaired (408) 321-2330. You may also visit us on the web at www.vta.org or email us at community.outreach@vta.org.
